No Bulky Systems

No Fussy Mess

No Babysitting

Create Your Own Transfers The Quick & Easy Way

VersiFlex uses a smart combo of inks and transfer papers for perfect results - no powders, no pre-treatments.

Print It

Using our trusted Sawgrass printers and innovative VersiFlex ink set, print your design to one of your VersiFlex-approved transfer papers.

Press It

While still wet, position your ready design onto your product, and apply adequate amounts of heat and pressure using a fully calibrated heat press.

VersiFlex It

Hot peel your transfer paper to reveal the magic. No matter what the material, VersiFlex ensures only your design transfers, no extra films left behind!

Innovative Adjustable Tray

Our SG1000 features an innovative adjustable tray that effortlessly accommodates items of all sizes and shapes, even irregular ones. Say goodbye to the hassle of multiple trays or setups, as our cutting-edge design empowers you to print on a diverse range of items with ease.

Superior Inks

Each Sawgrass printer utilizes our specially formulated inks to ensure excellent, consistent color output. With over 30 years of expertise in developing sublimation ink, our inks are specifically engineered to flow smoothly through the print head, minimizing blockages, resisting fading, and maintaining vibrant colors for years to come.

Precision Printing

Harness the unrivaled efficiency of our powerful printer and cutting-edge software to maximize the utilization of your paper and ink, allowing you to save money and enhance the consistency of your prints. With Print Utility, you can be confident that each print will be a masterpiece of precision and resourcefulness.
