DIGITAL STAR COMPANY

## Source of Digital Solutions...

Welcome to Digital Star, your trusted partner in the world of cutting-edge printing solutions. As a leading printing machines, materials, and ink authorized dealer in The Kingdom of Saudi Arabia, we pride ourselves on delivering state-of-the-art technology that empowers you to achieve unparalleled levels of efficiency and quality.

At Digital Star, we understand the pivotal role that printing machinery plays in the success of your operations. With a commitment to innovation and excellence, we curate a diverse range of top-tier printing machines to meet the unique needs of our clients. Our product line-up reflects the latest advancements in the industry.

As a responsible printing machines supplier, we prioritize sustainability. Our commitment to eco-friendly practices is reflected in the products we offer, promoting energy efficiency and environmentally conscious manufacturing processes. When you choose Digital Star, you're not just investing in cutting-edge technology – you're partnering with a company that values the planet as much as your success.

EK SERIES

## DUAL-MODE INTELLIGENCE, HEAVY-DUTY RELIABILITY

Smart Roller System: Redefining Flexible Production Standards | Labor-Saving & Wrinkle-Free  
Synchronized Precision, Perfected Production

Depending on the presence or absence of motor drive, there are passive and active unfolding models. The passive version provides a little resistance to the unwinding of the roll, which can be adjusted. This ensures that the roll will unroll flat and conform to the countertop felt without wrinkles. The active unfolding model is designed for materials that are easy to be pulled and deformed, and because it has its own motor drive, it can ensure that the material is unfolded at the same speed as that of the countertop felt feeder, and through the raised feeder bar, the material will naturally sag and naturally spread out on the countertop, maximizing the flatness of the material. This device can avoid wrinkles or stretching deformations caused by pulling, which prevents the cut size from not matching the design drawing.

Model	EK-1600/2500/3200/5000
Max Loading Width	1600/2500/3200/5000mm
Max Loading Diametre	50mm
Driving Way	By Motor
Speed	Same with felt moving
Max Loading Weight	500kgs
Locking Way	By air brack
Motor Rate	750w
Max Resistance Range	0-400N
Long-arm Rack	Have
Reverse Running	Have
Gross Weight	320kgs
Dimension	1850/2750/3450/5750*600*600

## Terms and Conditions

01. Payment to be made in SAR currency.
02. Payment Terms : As mentioned in Quotation.
