General Information & Highlights

Our range of wide format inkjet printers matches our knack for engineering and quality with your desire for impeccable performance and careless production. You can produce roll-to-roll indoor prints and long term outdoor signs. Wide applications in light box posters, customized car stickers, background wall cloth, label printing, advertising sign, subway advertising, shopping mall advertising signs etc.

The aluminum profile main beam is used to replace the original steel structure, providing better mechanical strength and mechanical precision.

X, Y axis motion transmission structure upgraded to provide more stable movement to ensure printing quality.

The printing platform is widened to ensure that the printing area is between the paper pressing slots to provide a stable printing effect

Standard fresh air system to reduce dust in the printing chamber and ink mist caused by inkjet.

Added flash spray slot structure to better improve printing speed and accurac

The printhead base is embedded in the structure, so the heads does not protrude from the bottom plate of the trolley, which better protects the print heads

Added a waste ink barrel alarm system for a more user-friendly experience.

The trolley lifting structure is upgraded, and the height of the trolley bottom plate does not need to be re-verified to adjust the height consistency of the left and right front and back.
